10 June 2020

Dear Ms Gallois

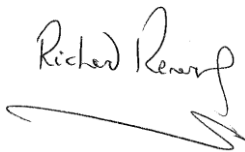

Thank you for your letter of 28 May 2020.

I very much appreciate your support for the temporary changes the Government of Jersey has introduced around the cost of GP services for children during this Covid-19 emergency.

In due course we will review these arrangements. You can be assured that the fee situation in relation to children visiting their GP will have a high priority in our considerations, in accordance with our Common Strategic Policy commitment of 'putting children first'.

Thank you again for your continued interest.

Yours sincerely

Deputy Richard Renouf
Minister for Health and Social Services
